Verificació control de relés

Prement els quatre botons de la pantalla Nextion, connectada via UART al TTGO-LoRa-ESP32, es controlen els relés mitjançant l'expansor I2C PCF8574. També canvia la presentació de la pantalla OLED.

Al prémer el botó de la placa blanca (indicat a la serigrafia com a BUTTON) es visualitza a la pantalla Nextion el valor llegit del potenciòmetre.

Codi preinstal·lat el dia 25 de juny (l'adreça del PCF8574 pot ser 0x20 o 0x38):
https://github.com/jordibinefa/arduino-IDE-codes/tree/master/esp32_Nextion_02b_

Amb MQTT integrat:

Lectura de temperatura (1/2)

```
                                /dev/ttyUSB0  
|  
Pressure : 1363.85 hPa  
Relative Humidity : 57.96 RH  
Temperature in Celsius : 20.07 C  
Temperature in Fahrenheit : 68.13 F  
Pressure : 1363.88 hPa  
Relative Humidity : 57.89 RH  
Temperature in Celsius : 20.07 C  
Temperature in Fahrenheit : 68.13 F  
Pressure : 1363.91 hPa  
Relative Humidity : 57.84 RH  
Temperature in Celsius : 20.06 C  
Temperature in Fahrenheit : 68.10 F  
Pressure : 1364.52 hPa  
Relative Humidity : 57.61 RH  
Temperature in Celsius : 20.01 C  
Temperature in Fahrenheit : 68.01 F  
Pressure : 1366.30 hPa  
Relative Humidity : 57.54 RH  
Temperature in Celsius : 20.04 C  
Temperature in Fahrenheit : 68.06 F  
Pressure : 1365.20 hPa  
Relative Humidity : 57.46 RH
```

Lectura de temperatura (2/2)

```
Temperature = 21.95 *C  
Pressure = 1017.37 hPa  
Approx. Altitude = -34.22 m  
Humidity = 62.85 %
```

```
Temperature = 21.95 *C  
Pressure = 1017.33 hPa  
Approx. Altitude = -33.92 m  
Humidity = 62.76 %
```

```
Temperature = 21.97 *C  
Pressure = 1017.33 hPa  
Approx. Altitude = -33.95 m  
Humidity = 62.70 %
```

```
Temperature = 21.97 *C  
Pressure = 1017.36 hPa  
Approx. Altitude = -34.17 m  
Humidity = 62.76 %
```
